**Bluetooth Photo Print Adapter**

Handling Instructions

## Safety Instructions

### Caution:

- ❑ Do not use this product inside medical facilities or near medical equipment. Radio waves from this product may adversely affect the operation of electrical medical equipment.
- ❑ Keep this product at least 22 cm away from cardiac pacemakers. Radio waves from this product may adversely affect the operation of cardiac pacemakers.
- ❑ Do not use this product near automatically controlled devices such as automatic doors or fire alarms. Radio waves from this product may adversely affect these devices, and could lead to accidents due to malfunction.
- ❑ Do not disassemble or modify this product. Doing so could result in injury, electric shock, or fire.

## About the Bluetooth Photo Print Adapter

This product is a wireless communication module that employs Bluetooth wireless technology.

### Note:

- ❑ While this product complies with the Bluetooth Specification, it is not guaranteed to work with all devices enabled with Bluetooth wireless technology.
- ❑ The communication range of this product is approximately 10 meters; however, this may vary depending on conditions including obstacles between devices; signal quality; magnetic fields; static electricity and electromagnetic interference; software; operating system; reception sensitivity; and antenna performance.
- ❑ For customer support information, please refer to your printer's or all-in-one's documentation.

## Connecting and Disconnecting the Bluetooth Photo Print Adapter

Refer to the printer's or all-in-one's documentation for how to connect and disconnect the adapter.

## Bluetooth Settings

### Printer / all-in-one

Refer to the printer's or all-in-one's documentation for how to make settings for Bluetooth wireless communication.

### Digital still camera / digital video camera / PDA / mobile PC

Refer to the device's documentation for more information.

## Specifications

Communication system	Bluetooth Specification Version 1.1
Output power	Bluetooth Power Class 2
Frequency band	ISM band 2402–2480 MHz
Communication range	Line-of-sight distance: Approximately 10 m  This may vary depending on conditions including obstacles between devices; signal quality; magnetic fields; static electricity and electromagnetic interference; software; operating system; reception sensitivity; and antenna performance.

## **Wireless Regulatory Information**

### **For North American Users**

#### **USA**

This product conforms to part 15 of the FCC rules. Epson cannot accept responsibility for any failure to satisfy the protection requirements resulting from a non-recommended modification of the product.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation of the device.

#### **FCC WARNING**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### **CANADA**

This product conforms to IC, Low Power License-Exempt Radio communication Devices (RSS-210)

Epson cannot accept responsibility for any failure to satisfy the protection requirements resulting from a non-recommended modification of the product.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation of the device.

FCC part 15 Subpart B Class B

#### **NOTICE**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However there is not guarantee that interference will not occur in a particular installation. If this equipment off an on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### **For Australian and New Zealander Users**

Epson hereby declares that this product, EU-84, is in compliance with the essential requirements and other relevant provisions of AS/NZS 4771:2000. Epson cannot accept responsibility for any failure to satisfy the protection requirements resulting from a non-recommended modification of the product.

### **For European Users**

Epson hereby declares that this product, EU-84, is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC, also known as the R&TTE Directive, in the following countries:

Austria, Belgium, Denmark, Estonia, Finland, France, Germany, Greece, Iceland, Italy, Ireland, Liechtenstein, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and United Kingdom.

Only indoor operation is permitted in France.

License is required for use in Italy.

Epson cannot accept responsibility for any failure to satisfy the protection requirements resulting from a non-recommended modification of the product.
